

Refuse a Safety Plan Script

Refuse a Safety Plan Script (Alabama Version)

"I understand you are asking me to sign a safety plan. I do not feel comfortable signing any legal document without first reviewing it fully and seeking legal counsel. I respectfully decline to sign anything at this time. I am requesting a copy of the document and the contact information of your supervisor so I can follow up after legal review. I am willing to cooperate, but I will not sign under pressure."

If the Situation Escalates

If they threaten removal:

"If you are threatening to remove my child for refusing to sign a document without legal advice, I am requesting that you state that clearly, and I am recording this interaction for my legal records."

Note: Alabama is a one-party consent state. You can legally record your own conversations.
